A lot of the time the float 4, F4, does better than Top 4, is it hits more like today. But on occasions Top 4 with early hits and F4 dropping from floating, top 4 can hit the 100/+100 figure first. But as the stream builds and 1x to 10x are starting, F4 & T4 can have same numbers being bet. Did Turbo not say as the stream builds it gets better. I read today over at GF, Dezie in proper use of progressions, choose you numbers wisely, LMAO.
