Out of interest, betting the 1x's. You bet 21, 1x until you have 9,2x's. So, that gives you 9 wins plus 5, 3x's. Now you drop the 1x's and use the 9, 2x's and get 2, 4x's #'s 15 & 30. Use a prog, would you not be up?
