Hit and run is the general playing method Amk. I use three progression levels

(LEVEL 1), 2,4,8

(LEVEL 2), 6,12,24--STARTING LEVEL

(LEVEL 3), 12,24,48

After a win on the first game OF EACH NEW DAY. I drop to level 1 stakes and play 4 more singular games.

After a loss at level 1 I jump to level 3 FOR ONE GAME. If the lost occurred on my FIRST GAME OF THE DAY LEVEL TWO STAKES (RARE) I jump to level 3 for two games.

I have yet to lose a first game at level 2 and have never lost TWICE. And as I said its all relative, once you are locked into a double figures winning streak, you pull ahead and profit overall is assured. Hit and Run assures it. (hit & Run in this test means

wait 20 spins then retrack)

Also 5 games a day. (or wheel)

note that this progression  
when lost depicts 210 units  
(worst case scenario loose 1st level 2  
then twice in a row level 3)
